

**IBM PERSONAL SYSTEM/2(TM) and PERSONAL COMPUTER
PUBLICATION and EDUCATION REFERENCES**

As of 01-13-89

The following list of PC publications is for marketing and market support purposes. This list was taken from the product Ivory Letters and all other known sources. The bulk of the publication numbers pertain to PC hardware products, as these are the ones in most demand. Some entries are listed in multiple categories because they pertain to each category within which they are shown.

The publications shown in this list are only some of the PC publications available; most PC publications have been assigned 7-digit part numbers instead of 8-digit form numbers. The following list is composed of only form numbers, so that you may readily order these publications from Mechanicsburg.

| Technical publications may be obtained from either an IBM Representative, an Authorized IBM
| Dealer, the Technical Directory (1-800-IBM-PCTB), or the IBM Software/Publications Response
| Line (1-800-327-5711); the latter is normally used by dealers.

| A change to the information since November 16, 1988 is indicated by a vertical line to the left of
| the change.
